

Tételsor Angol szakos államvizsgázók számára angol nyelvészetből és angol alkalmazott nyelvészetből

The purpose of this component of the final (state) examination is to assess how you can apply the knowledge and skills you developed during your university studies. Read the texts carefully and identify links between your university studies and the issues and themes in the texts. Choose one of the texts, and prepare a one-page summary of the points where you identify links with the subjects and topics you learnt about during your studies. In the oral exam you will present your points in about 8 minutes. Your examiners will assess your performance along three criteria: the relevance of the content of your presentation, your oral presentation skills, and your use of Academic English. Please bring 3 copies of your one-page summary with you.
